Subject: **Notice of Water Shutdown** – Cecilville Avenue & Orange Avenue for the Construction of a 12-inch Water Main on the 2600-2700 blocks of Orange Avenue & 5000 block of El Adobe Lane.

Dear Customer:

Please be advised that on the morning of **Tuesday, September 12, 2023**, Crescenta Valley Water District and J. Vega Construction of Ventura will be performing a water main shutdown to abandon the old 12-inch water main and connect the newly installed 12-inch water main at the intersection of Cecilville Ave and Orange Ave.

This work will result in a temporary interruption of water service at your address on **Tuesday, September 12, 2023**, between the hours of 8:00 a.m. and 4:00 p.m. Please plan for a temporary loss of water and accept our apology if this causes you any inconvenience. For the latest news and updates or to learn more about this project please visit our website at <https://www.cvwd.com/current-construction>.

We suggest that you draw water in advance of the shut-off time to supply ordinary needs. It is also advisable to store water in the bathtub for toilet flushing. In addition, after the water is back in service, we recommend that you turn on your water faucets slowly as there may be air trapped in your water line from recharging the water main in the street. The air should dissipate quickly, and water service restored back to normal. Lastly, it is suggested that you consult the User's Manual for all appliances connected to your home's plumbing system to ensure proper use after the water is back in service.

This work is all part of the District's continuing effort to improve your water system. We ask for your cooperation and thank you for helping us to make this project a success.

If you have any questions or comments concerning this project, please contact me at (818) 236-4115 or e-mail me at ckopelman@cvwd.com.
