Subject: **Notice of Construction** – Rehabilitation of Rosemont Steel Reservoir, Project E-1018.

Dear Resident:

Crescenta Valley Water District (CVWD) would like to inform you of an upcoming improvement project in your neighborhood. CVWD has awarded a contract to Crosno Construction, Inc. of Arroyo Grande, CA to perform rehabilitation of the roof and interior surfaces of the existing water storage tank located at 4745 Rosemont Ave. The water storage tank is an important component of the District's water supply in your area and is part of the District's continuing efforts to provide its residents with a safe and reliable water supply.

The contractor will begin mobilizing on Monday, November 9, 2020. The project is expected to be completed by March 2021. The construction hours will be from 7:30am to 4:00pm weekdays. The rehabilitation process will involve sandblasting, welding, painting and roof improvements. Please note the construction will generate intermittent noise throughout the project. We apologize in advance for the unavoidable noise as the contractor works on rehabilitating the reservoir.

Contractor's vehicles will be parked on CVWD property at the reservoir site. The existing gate on Rosemont Ave will be used as the main entry point. Please let us know if there are any problems related to this project.

In addition, to help the contractor stay on schedule, meet specifications and assure a quality finished product on the interior surfaces, dehumidification equipment will be placed on site. This equipment may run twenty four (24) hours during the week and is typically turned off on the weekends. This is to prevent rust bloom, blistering, curing failures on the interior surfaces and conform to the coating requirements.

As in most construction projects, the work will create a certain amount of unavoidable public inconvenience. Your cooperation in making this project successful will be greatly appreciated. Additional information that is updated periodically can also be found at Crescenta Valley Water District's website at www.cvwd.com.

If you have any questions or comments concerning this project, please contact me by phone at (818) 236-4115 or email me at colmedo@cvwd.com.

Very truly yours,

CRESCENTA VALLEY WATER DISTRICT

Christina Olmedo
Assistant Engineer
