CRESCENTA VALLEY
WATER DISTRICT

May 13, 2023

To Whom It May Concern:

I live at the above address and have been paying my Crescenta Valley Water District statement for years and am writing to protest the addition of any amount to my property tax bill. As with any other taxes, I believe the additional charge will never be removed from resident's property tax bills. Residents living in the Crescenta Valley have already incurred large property tax bills and for the water company to add to that large amount is not acceptable.

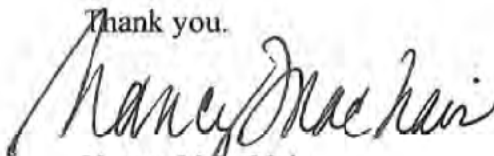

What has happened to all the money people have been paying over time to cover Capital Improvement Projects (19%) and Operating Expenses (22%)??

Why is the charge going on the property tax bill instead of the water bill??? Is this just a way to raise property tax rates for the people of the Crescenta Valley??

I realize water is precious but then why all the building of new places that will include water services? The building, as you know, takes a small one-family home and then builds a complex of eight to twelve units. That requires a lot of water usage as there are now as many as thirty-two to forty-eight people living in an area that once had four to six people. A representative of the water company once told our audience that "those people don't have yards" - what does that matter when each new unit will contain sinks, showers, bathtubs, toilets, dishwashers and probably a few plants on their tiny balcony?

I am protesting the addition of any amount to my property tax bill.

Thank you.

Nancy J MacNair

La Crescenta, CA 91214

To Whom It May Concern:

I am protesting the proposed capital charge on my property taxes. CVWD has increased my rates over the years for purposes including infrastructure and this proposed increase is far too large to be acceptable. It astounds me that knowing infrastructure was reaching the end of useful life, that this process wasn't started years and years ago and done little by little to lessen the monetary impact. Perhaps there are budget constraints that CVWD could activate within their own entity to find extra monies needed. You are pricing me out of my home.

Crescenta Valley Water District
2700 Foothill Blvd.
La Crescenta, CA 91214

RECEIVED
JUN 01 2023
CRESCENTA VALLEY
WATER DISTRICT

Honorable CVWD Board of Directors:

Having read and considered the details of your proposed capital charge on the property roll to fund infrastructure improvement, we must protest the fund-raising mechanism. Although we agree the aging CV system does need rebuilding, we very much disagree with the use of the property tax system as the fund raising mechanism.

You are NOT a county-wide public service, such as schools, libraries, etc. You are confined to a local area within the county. Thus, your fund raising should be specific to your customers, such as collection of funds through the monthly billing system. An additional concern we have, is that once on the property tax, you could be there forever.

We VOTE NO to using the county property tax system to raise funds.

Sincerely,

Devin Thor

Willow Healy

Subject: Challenge against Capital Charge on Real Estate Property Tax Bill

Dear Sir/Madam,

We are writing to express our deep concern and disagreement regarding the inclusion of a Capital Charge on our Real Estate Property Tax Bill. It has come to our attention that your utility company is seeking to levy this additional charge, which we believe to be unjust and unwarranted. We hereby challenge the validity of this charge and kindly request a thorough review and reconsideration of its application.

While we recognize the necessity of funding public utility services, including the maintenance and development of essential infrastructure, we firmly believe imposing a Capital Charge on property tax bills is an unfair burden on property owners. Real estate property taxes are primarily intended to support local governance, education, and other public services. The inclusion of a Capital Charge, which we understand is intended to recover infrastructure investments, constitutes an inappropriate method of cost recovery.

Here are several points to support our challenge against the Capital Charge:

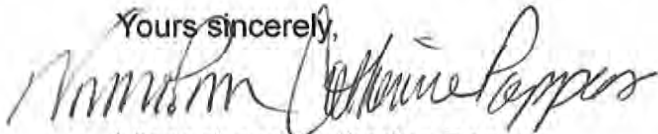

1. **Double Taxation:** Property owners are already contributing to the maintenance and development of public infrastructure through their property taxes. Levying an additional Capital Charge essentially amounts to double taxation, unfairly burdening homeowners and property investors.
2. **Non-usage of Public Utility Services:** Property owners should not be charged for infrastructure investments that they may not even directly benefit from or use. It is unreasonable to assume that all property owners will equally benefit from the infrastructure developments funded by the Capital Charge.
3. **Lack of Alternatives:** The inclusion of a Capital Charge on property tax bills presents property owners with limited alternatives and forces them to bear the entire financial responsibility. It would be more equitable for the cost of infrastructure investments to be distributed among all users of public utility services.

We respectfully request that your company conducts a thorough review of the Capital Charge policy and considers removing it from consideration on property tax bills. By doing so, you would demonstrate a commitment to fairness, transparency, and the well-being of your valued customers. We believe that a more appropriate approach would be to explore alternative funding mechanisms, such as user fees or a fairer distribution of infrastructure costs among all utility consumers.

Furthermore, we kindly request a prompt response addressing the points raised in this letter and informing us of any actions or considerations taken regarding the Capital Charge.

Thank you for your attention to this matter. We trust that you will carefully consider our concerns and take appropriate actions to rectify the situation. We look forward to your prompt response.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Vincent and Catherine Pappas". The signature is fluid and cursive, with the first name "Vincent" being more prominent.

Subject: Protest Letter

Dear CVWD Board of Directors,

With this letter I would like to voice my protest against imposing Property Tax Roll. The proposed annual Capital Charge by meter is too steep and just outright unreasonable there are a lot of residents who are retired and are on fixed income.

In the past, the district has raised rates under the pretext of improving infrastructure now Capital Charge by meter what's next?

Can the district show that it has met previous project schedule and cost? Is the District Board of Directors confident that they will be able to meet project schedule and cost this time?

I would ask the district to be more transparent and share project details such as what it entails, cost estimates and schedule with its customers and if there must be a Property Tax Roll increase it shouldn't be more than \$100 for 3/4" size meter that will be equivalent to approximately 25% of the proposed \$404.30.

Thank you,

Khatchig & Hourii Mandjikian

May 27, 2023

Dear CVWD:

I received your Public Notice of Proposed Capital Charge on the Property Roll. I'm surprised to read your statement at the top of the second page, "When you pay your water bill, you're paying to install, operate, maintain and improve our water system."

You acknowledge the water bill covers maintenance and improvement of the water system.

Now after years of paying for the maintenance and improvement of the water system you want more money.

Isn't this a self-incriminating statement of gross mismanagement?

You even state a third of the system is over 60 years old. So, for 60 years you've been collecting money well knowing the requirements of replacing and maintaining a sound and functioning water system. Knowing the system will need replacement, you want even more improvement money by putting a capital charge on the property tax roll.

I see more and more residential building going on all over the area. You allow the growth knowing full well the demand that will be placed on the 60 year old system. If there is a tax it should be in the form of a use tax and put on all the consumers. Not on just the property owners. Or pass a water bond to share in the expense.

I hope CVWD is not passing this on to the property owners alone.

Because of this mismanagement I hope there are members of the public on a board to oversee the activities of CVWD?

Property taxes are exorbitant and the District wants more taxes?

To Whom It May Concern:

I live at the above address and have been paying my Crescenta Valley Water District statement for years and am writing to protest the addition of any amount to my property tax bill. As with any other taxes, I believe the additional charge will never be removed from resident's property tax bills. As a recent owner of a home in La Crescenta, I already have incurred a very large property tax bill and for the water company to add to my already large amount is not acceptable.

What has happened to all the money people have been paying over time to cover Capital Improvement Projects (19%) and Operating Expenses (22%)??

Why is the charge going on the property tax bill instead of the water bill??? Is this just a way to raise property tax rates for the people of the Crescenta Valley??

I realize water is precious but then why all the building of new places that will include water services? The building, as you know, takes a small one-family home and then builds a complex of eight to twelve units. That requires a lot of water usage as there are now as many as thirty-two to forty-eight people living in an area that once held four to six people. A representative of the water company once told our audience that "those people don't have yards" - what does that matter when each new unit will contain sinks, showers, bathtubs, toilets, dishwashers and probably a few plants on their tiny balcony?

I am protesting the addition of any amount to my already high property tax bill.

Thank you.

Gentlepersons:

This letter is a written protest of the proposed property roll capital charges. It is not possible for me to attend a hearing on June 13 at 6:00.

I do not understand how you can bypass the voting process to increase my property taxes. I will not be able to pay such an increase. Further, your recent mailing is unclear about the amount involved, and I couldn't find any information on your website as you indicated. Are you calling for "\$404.30 annual charge" every year for the rest of my life?

I already pay approximately \$100/month for water, which is more than I pay for any other utility. I have not watered my landscaping for the past 6 months. I take one shower per day, and save water from that to flush the toilet. The only other water I use is for basic hygiene: cleaning and drinking. My last bill indicated a charge of \$16.53 for water and \$163.70 service charge add-ons.

I would like to know why critical infrastructure has not been maintained for the past 70 years out of the already exorbitant service charges for such small water usage.

How can I ensure that my protest is considered, and that no property tax charges are assessed?

Sincerely,

Janice Melhorn

A capital charge on the local property tax roll is unacceptable*. It also would establish a precedent that is unacceptable.

Please do not do this - find a better way of funding water distribution.

* With all due respect, senior and all low-fixed income households cannot cope with such dramatic financial increases.

Subject: Letter of Protest CVWD Property Tax Rate Proposal
Ref: Public Notice of Capital Charge Dated June 13, 2023

Dear Crescenta Valley Water District and Board of Directors

I believe the customers of Crescenta Valley Water District are being misled with the newest strategy to squeeze more revenue to keep the CVWD at a "Status Quo" operation.

Looking back at the last rate increase request it was clearly outlined in the proposal that a three year annual 8% increase supported costs for the ongoing infrastructure pipeline replacement. I quote several reasons and benefits for the annual 8% increase which was outlined in the Public Notice of Proposed Increase In Water And Wastewater Rates And Charges September 21, 2021:

" THIS PLAN NEEDS FUNDING, AND THE BOARD ELECTED TO PRESENT A THREE YEAR RATE INCREASE TO SUPPORT A COMMITMENT TO LONG TERM PLANNING AND INFRASTRUCTURE RELIABILITY"

"FOLLOWING CONSIDERABLE DISCUSSION, THE BOARD ELECTED TO PRESENT A LONG-TERM PAYGO PLAN WITH THE RAMP-UP OPTION FOR INFRASTRUCTURE REPLACEMENT AND MINIMIZE THE LONG-TERM COSTS TO THE DISTRICT, AND THE PROPOSED MULTI-YEAR RATE INCREASE SUPPORTS THIS LONG-TERM PLAN"

Now less than 2 years, CVWD and our elected Board of Directors indicate they need additional revenue to fund pipeline replacement. Something very serious has gone wrong from being able to support a long term plan and now CVWD requesting additional revenue. Several reasons are given such as increased costs (the usual) and because of a wet winter, customers haven't been using enough water. I believe the Board of Directors does not have the empathy that part of the water reduction / conservation is not the weather conditions, but customers are cutting back usage due to the high cost of water. Your customer base is being stretched by today's economy and cannot absorb the rate increases you keep imposing year after year. I also believe that using this historic weather anomaly as the reason for a new tax into perpetuity is not being realistic.

Over the years I have requested CVWD to quantify cost cutting efforts. I have seen very little if any quantifiable cost cutting efforts showing that the district can adapt to current harsh economic conditions. I read in reports that CVWD just wants to maintain Status Quo or business as usual.

I also believe that CVWD is singling out the homeowner, as I take exception to the verbiage in the *CVWD Pipeline Replacement Draft Report dated 4/13/2023 Page 5. Proposed Financial Plan*. I quote from the report. **"The mechanism promotes equity because the financial impact on the property owner who, on average, property owners have more ability to pay than tenants."** I really don't understand this statement and can only surmise that CVWD has a bias against the homeowner over tenants for collecting revenue.

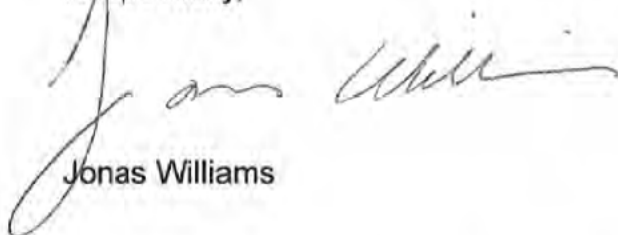

Additionally, I wonder if any of the infrastructure and pipeline upgrades have anything to do with the huge increase in future water requirements due to proposed development? I noticed in a CVWD report dated March 2023 that there are 189 new hookups proposed by various developers? I would like to request that CVWD explain how this substantial increase in water demand will impact the current infrastructure or needs for additional infrastructure updating at the homeowners expense.

I would like to ask the CVWD District share with its customers what changed since we were told the previous rate increase would cover PayGo infrastructures upgrades. Now we are being asked to pay a new tax into perpetuity buried into to our property taxes with annual escalation. If CVWD imposes a new tax for infrastructure will our bi-monthly bills be reduced by 19% for the current amount allocated for capital improvements? If this tax is approved, it will be the 4th individual tax associated with water on our property tax bill.

In summary I protest the proposed tax increase until the CVWD can explain what changed since we were told the rate increase would cover PayGo infrastructure upgrades. The mindset that you want to maintain "Status Quo" must change. Your customer base can no longer afford business as usual.

I also request that this letter be published in the public hearing package for the public meeting on June 13,2023.

Respectfully,

Jonas Williams

June 13th Public Hearing comments

Message:

I would like to comment that I am against the proposed capital charge to the property tax roll. The fee being assessed via annual property tax leads to government misspending and lack of oversight for the collected fees. Currently we are already charged a "sewer service charge" on the CVWD bill. It is my understanding that this fee was assessed when the community converted to sewer over 30 years ago. This fee has more than paid for the connection costs to sewer and can now be switched to the current needs rather than an added charge onto property taxes. If this amount is insufficient, newly constructed apartments and condos in the community should be required to pay the additional costs, as they are the majority cause for the added burden to the water resources within the area.

To Whom it May Concern,

I believe CVWD should have had the foresight and leadership to plan for aging infrastructure just as an individual home owner needs to plan a savings for anticipated future expenses. To do anything less is negligent. Seems like this charge violates "Prop 13"

I am opposed to the increase of property tax charges as set forth in your letter of proposal. Families are struggling to make ends meet with the increase of costs of everything! You have already raised the water rates several times since I've lived here. Along with all the other utility rate hikes, opening a utility bill has become nightmarish! I am an avid recycler, reducer, conservator as are many of my neighbors. This property tax rate is unfair and a burden on the families in the community.

PROTEST

There is no reason on Gods Green Earth that your agency has the right to tap into C.V.W.D. clients, property TAX bill.

You have become an untrustworthy agency for many years. I am telling you ahead of time you do not have MY permission to tax MY property tax bill.

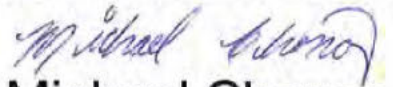

You have a way to charge me on my water bill As I have been paying you for many years, continue to do the same and do not make any changes.

That is all I am giving you authority to do. Otherwise, there can be lawsuits involved with whatever dirty move you make. Charge me to my face and don't go around the back door.

I am very supportive of proposition 13 and the Howard Jarvis foundation.

I think CVWD should be embarrassed trying to make this move on your clients.

Shame on you BOARD and whoever thought of moving forward with this NEW billing method.

Michael Chonos

Subject: Proposed Property Tax Roll increase

RECEIVED
JUN 05 2023
CRESCENTA VALLEY
WATER DISTRICT

Dear CVWD,

I highly disagree with your proposed increase being applied to Property Tax. I understand the need for rate increases to cover maintenance and improvements to the water system, but those increases should be on the water bill for everyone to see plainly.

Putting increases on the Property tax fee list hides your increase from the public observance. Very few people look at these "fees", only the total payment required. Some people pay the property tax through their mortgage payments and don't even know what their property tax is.

If CVWD needs to increase rates, put it on the water bill for everyone to see, then the increase can be debated and discussed fairly.

I delivered a protest letter form which was not easy to fill out and should have been included in your flyer or last billing along with a prepaid envelope.

Vern Kelly

[REDACTED] FROM NOT A

From: Nora Kilagblian [REDACTED]
Sent: Sunday, June 11, 2023 8:37 PM
To: Customer Service
Subject: Capital charge addition

Dear all,

Please understand that this additional fee would constitute hardship for many hardworking community members. In the last several years, there have been an inordinate amount of fees, taxes and other cost increases. Our community is getting overburdened. So with that in mind, we'd like to submit our opposition to this additional capital fee increase.

Regards,

Nora Koval (kilagblian)

From: Peter Freidenberger [REDACTED]
Sent: Saturday, June 10, 2023 3:28 PM
To: Feedback
Subject: proposed capital charge

We are writing to say we disagree with the plan to add \$400 to our property taxes. This money being used to pay for the installation of the new water pipes which are going to be replaced throughout La Crescenta.

How can there be no end date for this additional "water tax" to our property taxes?

There must be another solution.

Thank you,
Lee & Pete Freidenberger

(from Marilyn Tyler, [REDACTED] Brookhill St., La Crescenta)

To: CVWD Board of Directors
CC: Tom Bunn, Attorney for CVWD
From: Marilyn Tyler, Property Owner
Date: June 12, 2023
Subj: Protest Letter and Potential Legal Challenge: Proposed Property-Related Fee (2 pages)

I protest the proposed property-related fee to fund pipeline replacement because it violates Proposition 218 (ref. "KCSFV I, LLC v. Florin County Water District (2021) 64 Ca.App.5th 1015").

The Public Notice I received in May 2023 states: "The Crescenta Valley Water District (CVWD) Board of Directors will conduct a public hearing to consider a capital charge on the property tax roll to fund pipeline replacements." While the Public Notice states the proposed fee by meter size, nowhere does it provide evidence or analysis that the proposed fee amounts are not excessive.

The proposed fee amounts are estimated to provide approximately \$4M in revenue for pipeline replacements in FY2023/2024. But the desired \$4M in revenue was arrived at to satisfy the Roadmap/Pyramid Pipeline Replacement Schedule, a working document never formally approved by the CVWD Board and intended to be aspirational, not necessarily realistic. The aspirational goal of the Roadmap/Pyramid Pipeline Replacement Schedule is to replace all aging pipes as they reach 75-years of age.

In support of the proposed property-related fee, CVWD provided to the public a document entitled "Subject: Supplemental Study for Determining a Capital Charge for the District's Long-Term Pipeline Replacement Program" by James Lee, CVWD Director of Finance and Administration, dated April 18, 2023. The document states in part *"...external factors have combined to significantly alter the trajectory of the District's ability to commit to its 'Roadmap' plan going forward. The 'Roadmap' refers to the Infrastructure Funding and Reliability plan which was developed between the Board, the community, and staff over several years, the primary result for which was a commitment to proactive pipeline replacement and a 20-year plan for ramping up then ramping down replacement..."* i.e., the aspirational Pyramid Pipeline Replacement Schedule.

Evidence that the Pyramid Pipeline Replacement Schedule is aspirational rather than realistic can be seen when the Pyramid Pipeline Replacement Schedule is examined in detail (refer to CVWD Engineering Packet 04202021 Information Item No. 1, "Discussion of Long-Term Pipeline Replacement Schedule" by David Gould, P.E., CVWD Director of Engineering). Mr. Gould himself has previously stated in my hearing that the community is seriously disturbed if more than 2 miles of pipe is replaced in one year, yet the Pyramid Pipeline Replacement Schedule proposes replacing more than 2 miles of pipe per year in twelve of its twenty year schedule. The reason for this disconnect is that Mr. Gould was asked to come up with a schedule which met the goal of replacing all aging pipe as they reached 75-years of age (aspirational), he was not asked if the resulting schedule was reasonable or realistic.

The barrier to increasing the amount of aging pipe replaced per year has not been revenue but reality. CVWD has made multiple attempts to increase revenue, each time using the argument that the money was needed to replace aging pipelines: in 2020 a \$5M bond was approved, and in 2021 a 3-year schedule of rates increases was approved which increased rates 8% each year resulting in a cumulative rate increase of 25%. But for each year, I believe the actual amount of pipe replaced fell short of the budgeted goal for reasons other than revenue. I believe CVWD has not been able to replace more than 1.3 miles of pipe per year, nor spend more than \$2.3M per year for pipeline replacement even though \$2.5M was budgeted.

In conclusion, CVWD's attempt to impose a property-related fee for pipeline replacement based on aspirational goals, rather than on an accurate analysis of what can realistically be accomplished with respect to pipeline replacement in FY2023/2024, violates Proposition 218 because CVWD has failed to prove that the \$4M revenue which would be generated for pipeline replacement for FY2023/2024 is realistic and not excessive (ref. "KCSFV I, LLC v. Florin County Water District (2021) 64 Ca.App.5th 1015").

Attachment: CVWD Omissions and False Statements

(page 1 of 2)

(From Marilyn Tyler, cont.)

ATTACHMENT: HOW DOES CVWD DERIVE AND JUSTIFY THE DESIRED \$4M YEARLY REVENUE FOR PIPE LINE REPLACEMENT? --- OMISSIONS AND FALSE STATEMENTS

[1] APRIL 18, 2023: In support of the proposed property-related fee, CVWD provided to the public a document entitled "Subject: Supplemental Study for Determining a Capital Charge for the District's Long-Term Pipeline Replacement Program" by James Lee, CVWD Director of Finance and Administration, dated April 18, 2023. But this extensive document provides NO detailed derivation or justification of the desired \$4M yearly revenue for pipeline replacement. In the entire 9-page document I could only find two statements: Page 2--- qualitative reference mentioned earlier to the District's desire to commit to the 'Roadmap' plan; and a single sentence at the bottom of Page 6 top of Page 7, which says in essence "CVWD needs \$4M in yearly revenue for pipeline replacement because CVWD needs \$4M in yearly revenue for pipeline replacement." If a tautology is sufficient argument to satisfy Proposition 218, why stop there? Why not say CVWD needs \$10M, or \$100M?

So I looked looked further back and examined the CVWD Board Agenda Packets prior to April 18, 2023 (which are posted on the CVWD website). I discovered the following:

[2] APRIL 11, 2023 FALSE STATEMENTS: In the Agenda Packet for the April 11, 2023 CVWD Board Meeting, under Action Item 3 ("Property Tax Roll") I found the charts which CVWD presented at the Virtual Town Hall Meeting on April 4, 2023. In the section entitled "Plan For the Future" I found two charts entitled "Pipeline Replacement Requirements" and "Updated Pipeline Replacement Requirements" which state "Roadmap Plan to ramp up: Board-approved June 2021" and "Revised Plan: November 2022." Both statements are FALSE: I could find NO evidence in the Board Agendas and Minutes for the entire calendar year of 2021 that the CVWD Board formally approved the Roadmap Plan or the "Roadmap Plan to ramp up" in June 2021 or in any other month in 2021. Similarly, I could find NO evidence that the Roadmap Plan was revised in the Board Agendas and Minutes for November 2022 or in any other month in 2022. I also examined the Engineering Committee Agenda Packets for the entire year of 2022 and could find no discussion of revising the Roadmap Plan to the numbers shown in the Town Hall chart.

The Roadmap Plan appears to be the basis for the proposed property base fee, so where is the documentary evidence that the Roadmap Plan was formally approved in June 2021 or formally revised in November 2022? Were those desired revenue numbers, purported to be from a "Revised Plan" and which also match the unidentified numbers at the bottom of page 6 in [1] above, pulled out of thin air?

[3] MARCH 28, 2023 OMISSIONS: In the Agenda Packet for the March 28, 2023 CVWD Board Meeting, under Action Item 3 ("Revenue Requirements for Infrastructure Funding on the Property Tax Roll"), charts for the "Roadmap Plan" and the revised "Roadmap Plan" appear for the first time (they appear for the second time in the Town Hall charts in [2] above). But in their first appearance on March 28, 2023 the charts come with important information not mentioned in [1] or [2] above, specifically: The costs presented for the "Roadmap Plan" and the revised "Roadmap Plan" *"Includes assumption of 4.5% inflation on cost/linear foot"* for FY2023-24, FY2024-25, FY2025-26, FY2026-27 and FY2027-28. The assumptions for the "Baseline Financial Scenario" are also presented, such as 3% rebound in water sales, rate increases, O&M increasing by 5% per year and CIP expenditure (including Pipeline Replacement) averages \$6.9M per year.

Why were these important assumptions about inflation and the baseline financial scenario omitted from [1] and [2] above?

CONCLUSION: Rather than providing a sound derivation and justification for the desired \$4M/year revenue for pipeline replacement, CVWD has adopted the strategy of providing false statements and less and less information as time went on (March 28, 2023 to April 11, 2023 to April 18, 2023) until, *reductio ad absurdum*, CVWD is reduced to the tautology: CVWD needs \$4M/year for pipeline replacement because CVWD needs \$4M/year for pipeline replacement.

DELIVERED BY HAND 6/14/2023

RE: **Protest** of Proposed Property Roll Capital Charges

Dear Sir or Madame,

We have received your materials regarding the proposed property roll capital charges for the purpose of pipeline replacement over the next five years. Per your own Utility Services Statement "CVWD is responsible for the water line in the street and for the water line in our meter. We also maintain the valve, meter box and lid". Based on this assertion, we assume you manage financial resources from the fees you charge for water service in a way that will support the repairs and maintenance of the infrastructure you own and run.

We are completely opposed to the proposed fee being added to our property tax bill. You raise our service costs on a regular basis and should account for needed repairs and maintenance from those resources.

Sincerely,

Two handwritten signatures in blue ink. The first signature is a stylized 'A' followed by a flourish. The second signature is a stylized 'K' followed by a horizontal line.

Subject: Objection to Property Tax

RECEIVED

JUN 12 2023

CRESCENTA VALLEY
WATER DISTRICT

Good morning,

I am unable to attend the public hearing tonight and wanted to send our objections to the proposed capital charge on our property tax roll. This is an extremely high tax burden to place on your customers without warning. As homeowners, we are responsible for the maintenance of our homes and set aside funds each year for improvements that can be costly and unexpected.

The aging pipelines should not be a surprise expense as the CV Weekly mentions they are 50-70 years old. As items age, they need to be replaced. This should have been done in phases with funds set aside each year to do this. Now, there seems to be a panic situation and your customers have to take the fall for it. My two concerns are a) Why is this showing up on our property tax bill? and b) the infinite time period of this charge or as the paper mentions "for several years".

Many of our neighbors are elderly and this fee would be a financial burden. I am disappointed in how this is being handled and hope you will listen to your customers and find a better solution.

Please accept this email as a formal objection to this property tax capital charge.

Sincerely,

Joanne and John Pingry

Subject: MORE RATE INCREASES

RECEIVED

JUN 09 2023

CRESCENTA VALLEY

CVWD Board Members,

The purpose of this email is to AGAIN protest about yet another rate increase. Although you are being clever in a new way to price gouge your customer with a property bill idea.

I have lived in my home since October 1973, so it will be 50 years in a few months. My water bills have been ridiculous for many years. I have given up my vegetable gardens, indoor plants and bought new appliances that are reported to be energy efficient. I have tried using grey water. I have installed new shower nozzles, eliminated some of my yard's greenery and replaced it with gravel. I have fixed plumbing problems immediately. But my water bill continues to be a huge concern on an ongoing basis.

I have been retired for almost 10 years. My pension does not increase with the alarming regularity as the CVWD rate increases. In fact, far from it. It's becoming hard to keep up with the bills and to think of more ideas to conserve water. During drought restrictions, my bills continue to rise even with very limited water use.

This new proposal to sneak a new rate increase below the radar is ridiculous and insulting. I completely object on all levels.

I will attend the hearing but frankly, I have attended before and felt disregarded and disrespected. I sincerely hope that this hearing can be run with an appropriate compliance to Robert's Rules of Order, especially when enforcing the time limitation for comments from the audience. It seems lengthy comments from supporters of CVWD leadership are always allowed while other speakers are cut off rudely and abruptly.

I will keep hope alive that Tuesday's meeting will be productive.
