

WATER OUTAGE ALERT:

A 16-inch water main was hit by SCE's sub-contractor while installing new power poles near the intersection of Raymond Ave and Los Olivos, behind Rosemont Middle School. CVWD crews have been working since 5 pm yesterday (July 28, 2018) to repair the pipe. Water was shut off in the following areas shown below to allow the crews to complete the repair. Water service should be restored by 10 am today (July 29, 2018).

2400, 2700- 3200 Blocks – Los Olivos	3200 Block – Washington Place

We apologize for any inconvenience this may cause. After the water is back in service, we recommend that you turn on your water faucets slowly as there may be air trapped in your water line from recharging the water main in the street. The air should dissipate quickly and water service restored back to normal. It is also suggested that for all appliances connected to your home's plumbing system that you consult the User's Manual to ensure proper use after the water is back in service.
