

CRESCENTA VALLEY WATER DISTRICT

Operations & Telemetry Technician I

SUMMARY DESCRIPTION

Under supervision of the System Operations & Telemetry Manager, the Operations & Telemetry Technician is a hybrid position representing the District's vision for a holistic approach to operations, serving System Operations, Telemetry, and Water Quality. Time allocated between the teams will be determined according to organizational need and priorities. This position requires a person who is deliberate about teamwork and professionalism, is flexible, can work independently, is a good listener, and can express ideas and exercise good judgement in analyzing situations and making decisions.

REPRESENTATIVE DUTIES

System Operations

- Collect water samples and perform standard lab analyses;
- Operate groundwater treatment and monitoring facilities;
- Perform preventive maintenance and repair on pumps, valves, and meters;
- Conduct daily inspections of production facilities and monitor site safety;
- Respond to and resolve customer water quality service requests.

Telemetry/Instrumentation

- Test, troubleshoot, calibrate, and maintain electronic systems and controllers;
- Integrate SCADA and radio communication networks;
- Install electrical systems, including housings, wires, conduits, controllers and switchboards;
- Perform periodic electrical/electronic preventative maintenance, repair of the District's water systems equipment, motor control programmable logic controllers, networking hardware, chlorine analyzers, etc.

Water Quality & Additional Duties

- Perform periodic electrical/electronic preventative maintenance, repair of the District's water systems equipment, motor control programmable logic controllers, networking hardware, chlorine analyzers, etc.;
- Ensure proper chain of custody and perform lab analysis;
- Support project communication between System Operations and other divisions.

LICENSES/CERTIFICATES:

- Possession of a CA State Class C driver's license.
- Possession of a D3 and T2 certificate issued by the State Water Resources Control Board (within 6 months of hire).

EXPERIENCE AND EDUCATION:

Any combination of equivalent experience and/or education that provides the required knowledge and abilities would be considered qualifying. A typical way to obtain the knowledge and abilities would be:

- Experience: 2 years of field maintenance experience in water treatment, telemetry, or distribution systems.
- Education: Bachelor's degree in communications, water technology, management science, public administration, or related field.

BENEFITS

- Salary range is \$63,888 – \$85,860
- 12 Paid Holidays and 3 floating holidays
- 9/80 Workweek
- \$300 annual wellness stipend
- 88 hrs Sick Leave and 80 hrs Vacation Accrual
- Comprehensive Medical (Anthem BC HMO + 1), Dental, and Vision insurance plans
- CalPERS Pension
2%@55 for Classic Members
2%@62 for PEPR
